Disclosure: this page uses a referral link. If you sign up through it, the author may earn a commission at no extra cost to you.

What Is the Latest Hostinger Coupon Code?

The code featured in this guide is DPHost. Hostinger's base plan discounts change often, and the extra referral discount is applied on top of them for eligible new accounts. Your final price depends on the plan, the billing term (longer terms are cheaper per month) and the promotion running on the day you check out.

Tip: the biggest savings generally come from choosing a 24- or 48-month term, because the introductory price is locked in for that whole term.

How to Use Hostinger Coupon Code DPHost

1 Open the referral link: https://www.hostinger.com?REFERRALCODE=DPHost.

2 Choose a plan (Shared, WordPress, Cloud or VPS).

3 Select your billing term. Longer terms give the lowest monthly price.

4 Continue to the cart and create or log in to your account.

5 If the extra discount is not already shown, click **Have a coupon code?** and enter **DPHost**

6 Click Apply and check that the discount appears in the order summary.

7 Review the total (taxes are added separately) and complete payment.

Why Choose Hostinger?

- **Low introductory pricing:** one of the most affordable hosts for beginners and small businesses.
- **Beginner-friendly:** custom hPanel control panel, one-click WordPress install and website builder.
- **Performance features:** LiteSpeed-based servers and caching on many plans.
- **VPS options:** full root access for developers, apps and self-hosting.
- **Extras on eligible annual plans:** free domain for the first year and free SSL (check your chosen plan).
- **30-day money-back guarantee** on hosting plans (see Hostinger's terms for exclusions).

Which Plans Can You Use the Code On?

Plan type	Best for	Notes
Shared / Premium	Blogs, portfolios, small sites	Cheapest entry point; free domain on eligible terms
WordPress hosting	WordPress sites and stores	Optimized WordPress setup
Cloud hosting	Growing business sites	More resources and dedicated performance
VPS hosting	Developers, apps, custom stacks	Full root access; scalable plans

Eligibility and discount size can vary by plan and country. Always confirm the final price on the checkout page.

Before You Check Out: Quick Checklist

- Selected plan and billing term
- Whether a free domain is included with your term
- The discount shown after entering DPHost
- Renewal price (introductory prices usually rise at renewal)
- Add-ons you do not need (they can be removed in the cart)
- Final total including taxes

Can HOST20VPS Be Combined With Other Discounts?

Hostinger's cart accepts one typed coupon code at a time, but a typed code or referral discount can apply on top of the automatic sale price. Student, loyalty or other special offers may not stack. The reliable way to know is to apply the code and read the order summary.

If the code does not work

- Make sure you opened the referral link in the same browser before checkout.
- Copy and paste the code with no spaces.
- The offer is generally for new customers only; existing accounts may not qualify.
- Check that your plan and term are eligible.
- Clear cookies or try a private window, then reopen the link.
- Contact Hostinger support with your plan, term, code and any error message.

Frequently Asked Questions

What is the Hostinger coupon code?

The code in this guide is DPHost. Use it through the referral link or enter it in the coupon box at checkout.

How much can I save?

Hostinger advertises sale discounts of up to roughly 80% depending on plan and term, with an extra referral discount on top for eligible new customers. Exact savings are shown at checkout.

Does the code work on VPS hosting?

Yes, the code is intended for Hostinger plans including VPS, subject to eligibility shown at checkout.

Is it for new customers only?

Referral discounts are typically limited to new accounts.

Can I use it more than once?

Usage limits are set by Hostinger's current terms. Check at checkout.

Will the price go up at renewal?

Yes. Introductory pricing normally applies to your first term only, so check the renewal price before buying.

Final Verdict: Use Code HOST20VPS

If you are ready to launch a website or spin up a VPS, check for the extra discount first. Open the referral link, pick your plan and term, apply DPHost, and confirm the savings in your order summary before paying.
